

Hondra Smith Jr.

Chesapeake, VA 23323

803-477-0755 | hondra1094@gmail.com

PROFESSIONAL SUMMARY

Test Engineering professional with over 9 years of experience supporting U.S. Navy submarine operations, maintenance, testing, and work control. Experienced in leading testing activities, coordinating cross-departmental teams, reviewing engineering documentation, and ensuring compliance with Navy and shipyard safety standards. Proven ability to manage priorities in fast-paced environments while maintaining quality, safety, and schedule performance. Active Secret Security Clearance with extensive knowledge of submarine auxiliary systems, technical drawings, work authorization, and testing procedures.

CORE COMPETENCIES

- Active Secret Security Clearance
 - Test Engineering
 - Engineering Documentation
 - Technical Drawing Interpretation
 - Tag-Out Procedures
 - Controlled & High-Risk Evolutions
 - Technical Reporting
 - Project Coordination
 - Team Leadership
 - Risk Management
 - Quality Assurance
 - Hydraulics & Pneumatics
 - Troubleshooting
-

PROFESSIONAL EXPERIENCE

Lead Test Engineer II | December 2023 – Present; **Engineering Technician III** | March 2023 – December 2023; **Engineering Technician II** | August 2022 – March 2023;

Newport News Shipbuilding

- Lead testing activities supporting submarine maintenance and modernization projects.
- Review test packages to verify compliance with engineering drawings, work packages, and testing requirements.
- Represent the Test Engineering department during planning meetings with shipyard organizations and U.S. Navy personnel.
- Monitor project progress, communicate technical issues, and provide status updates to leadership.
- Analyze and report testing metrics to support project execution and continuous improvement.
- Attend controlled evolution and high-risk evolution briefings to ensure safe testing operations.
- Oversee Work Control priorities and coordinate daily assignments.
- Conduct deck plate inspections to verify work locations, identify deficiencies, and ensure system readiness before testing.
- Interpreted engineering drawings, reports, and work packages to support maintenance planning and execution.
- Ensured shipyard personnel operated within approved safety boundaries and work control requirements.
-

Machinist's Mate Second Class (MMA2)

United States Navy | May 2017 – May 2022

- Served aboard USS Helena supporting submarine maintenance, operations, and engineering systems.
- Maintained an Active Secret Security Clearance.
- Final duty station: Norfolk Naval Shipyard (Fleet Maintenance Branch).
- Operated, maintained, and repaired pneumatic, hydraulic, potable water, sanitary, diesel, and auxiliary systems.
- Interpreted technical drawings and engineering documentation to support maintenance and troubleshooting.
- Executed complex tag-out procedures and work control documentation in accordance with Navy requirements.
- Supported submarine maintenance availabilities at Newport News Shipbuilding, gaining extensive experience with shipyard work permits, work control processes, and engineering coordination.
- Collected and documented testing data to verify system performance and support engineering evaluations.

LEADERSHIP HIGHLIGHTS

- Supervised Work Control priorities and coordinated daily testing activities.
 - Managed maintenance scheduling for firefighting and dewatering equipment aboard a submarine.
 - Mentored and trained junior Sailors on maintenance procedures, work control, and safety requirements.
 - Collaborated with engineering, production, quality assurance, and Navy personnel to accomplish mission-critical objectives.
 - Recognized for maintaining composure and making sound decisions during high-risk operations.
-

TECHNICAL SKILLS

Engineering & Testing: Test Procedures, Engineering Documentation, Technical Drawings, Data Collection, Technical Reporting

Mechanical Systems: Hydraulic Systems, Pneumatic Systems, Diesel Systems, Potable Water Systems, Sanitary Systems, Auxiliary Systems

Software: Microsoft Office Suite

SECURITY CLEARANCE

Active Secret Security Clearance
